

## Combine Demo Derby Rules:

### Requirements to Participate:

- Drivers and pit crew are expected to attend pit meeting when called
- Combines will be inspected by competition officials. Any infractions of the rules must be fixed before machine will be cleared to compete. All official's decisions are final!
  - After passing inspection the driver will be given a colored stick and this must be mounted near the driver area so it can be broken off after driver is unable to continue or is disqualified
- Seatbelt and D.O.T. approved helmet are required to be worn during competition. A fire extinguisher must also be on board the combine
- Combines may be decorated, painted, or offer advertising but must be in good taste. No profanity or obscene materials will be allowed
- Any flagrant violation by driver and pit crew, reckless driving, foul language, or action toward official or fan will result in disqualification and forfeit of prize money
- NO alcoholic beverages or intoxication allowed in the pit before, during, or after the derby. Subject to disqualification, forfeit of prize, and arrest

### Combine Build Rules:

- Exhaust must exit vertically
- Batteries must be mounted higher than 4' on combine, away from driver and some sort of covering over them
- Original fuel tank must be removed and new fuel source placed into the grain tank
- Radiators/coolant systems must have WATER ONLY NO COOLANT!
- Tires filled with air only—no fluid or foam
- Combine must have some sort of head on it
- Platform must have reel, sickle, and snouts removed
- Corn head must have snouts and row units removed
- Combine ladder, unload auger, chopper, and cab glass must be removed
- Drivers door must be welded/chained shut
- Safety bars must be added to drivers door side of cab for drivers protection
